ODD FELLOWS' AND REBEKAHS'

Reports Show the Two Orders To Be in Good Condition.

BRANDT OF SPARTA

New Grand Master and All the Officers Have Been Promoted.

REBEKAHS KEPT BUSY

Milwaukee, Wis., June 5.—At the session of the Grand Lodge of Odd Fellows this morning the officers for the ensuing year were elected, a mere formality as the entire list is promoted each year. F. S. Woodworth, the present grand master, becomes a past grand master, and will be succeeded by A. F. Brandt of Sparta, the present deputy grand master. S. J. Shaffer of Colby will be deputy grand master; Robert Hoe, grand secretary, and David Alter, treasurer, will be re-elected; J. H. McNess of Richland Center, grand chaplain, will be grand warden; Jackson Silbaugh of Viroqua, grand chaplain; N. R. N. Nelson of La Crosse, grand representative; E. A. Kehr of Milwaukee, grand conductor, and J. M. Brainerd of Oshkosh, grand guardian.

Report of Secretary

Secretary Hoe's report showed, among other things (that the total receipts from all sources for the fiscal year of the grand lodge ending April 30, 1901, were \$11,868.61, being an increase of \$188.50 over the previous year. Total number of subordinate lodges at the close of the year, December 31, 1900, 330; total number of members on December 31, 1899, 15,505; number initiated during the year, 1,246; number admitted by card, 251; number of members reinstated, 221, making a total at the close of the year 1900 of 17,228. From this should be deducted losses aggregating 1,264, leaving the total membership December 31, 1900, 15,959, a net gain for the year of 454.

The annual report of the officers of the Odd Fellows' Home at Green Bay shows that institution to be in a flourishing condition, and the total receipts from all sources for the home for the year amounted to \$6,482.97. The total expenditures amounted to \$4,886.93. There are in the home at the present time a total of 34 inmates, exclusive of officers, attendants, etc.

Rebekah Assembly Meets

The Rebekah Assembly for the state of Wisconsin met in the Odd Fellows' temple on Grand Avenue at 10 o'clock this morning, and the day was taken up with routine business.

The report of the treasurer, Jennie Howe, shows the receipts to have been \$1,739.16 and the disbursements \$849.66, leaving a balance on hand of \$889.50.

The report of Secretary Sarah E. Hutchinson shows that there are 8,547 members, of whom 238 are brothers and 5,809 are sisters. The initiations during the year were 740. The total amount paid for relief work was \$1,732.86; the total receipts \$10,159.93; assets of Rebekah lodges, \$24,369.98; invested funds \$251.44.

WOMEN WILL KEEP MILWAUKEE CLEAN

Organize to Improve Yards, Especially in Poorer Quarters—Indecent Posters Doomed.

Milwaukee, Wis., June 5.—Milwaukee fell into line with the wave of interest which is sweeping over the country and which has for its object the improvement of the yards of cities and some of the progressive women of the city today organized the Milwaukee Outdoor Art and Improvement association, and they propose to clean up the thickly settled portion of the city and make war on the indecent poster.

The society especially will devote itself to the Italian quarter in the Third Ward and to the Jewish quarter in the Second and Sixth wards.

WISCONSIN MEN ORGANIZE

Society Formed by Former Residents Now Living in New York.

New York, June 5.—A number of former natives and residents of the state of Wisconsin met today for the purpose of discussing plans looking to the organization of a Wisconsin society similar to the Ohio and Missouri societies. Dr. William A. Fricke was made the temporary chairman. Among those attending were Miles Menander Dawson, C. D. Fahset, P. H. Haid, Gustaf Finkler, Charles A. Jenney, Gilbert E. Roe, and George W. Hayes, Jr. To become a member of the proposed organization one must be a native, or son of a native, of the state of Wisconsin, the son of a member of the society, or a resident for seven years of the state.

MACCABEES AT WEST SUPERIOR

Thousands of People Are Expected to Attend the State Convention Tomorrow and Friday.

West Superior, Wis., June 5.—Tomorrow and Friday will be very large days in this city on account of the annual state convention of the Macabees. Several thousand visitors are expected to be here at that time, including the delegates to the convention and Macabees and others that will come. The programme for the entertainment of the Macabees is probably the best that has been gotten up since Superior became known as a city of conventions. The parade will be on Thursday night and will be reviewed by National Commander Markey. He will also make a speech and there will be several other supreme lodge Macabees here from all over the country.

On Friday one of the features for a good many of the visitors will be a ride on Lake Superior and the visit to the shipyards of the American Shipbuilding company.

RIOTING STUDENTS UNDER ARREST

Another "Night Shirt" Parade at Madison, Makes University Officials Furious.

Madison, Wis., June 5.—As a result of a "night shirt" parade and a riotous demonstration last night by 250 students of the State University four young men appeared before Judge Donovan in the municipal court this morning and answered to charge of disorderly conduct. The demonstration was equalled only by the disgraceful Halloween fray on the laundry of the ladies hall last year.

Acting president E. A. Birge last night chased a group of students two blocks, and if he had captured one of them that unfortunate person would have been compelled to get his education elsewhere. The reason Dr. Birge was so incensed was that the howling, hooting mob of students hung around his residence the most of the night, while he was entertaining former President Bascom and wife, of Williamstown, Mass., who are here for commencement.

The officials of the institution are furious at the disgraceful outbreak, and expulsions are to follow. The boys were more reckless than usual because of the closeness of the end of the school year.

GIRL AS GOOD AS FLY POISON

Any Insect That Bites Her Instantly Falls Dead

Clyde, N. Y., June 5.—A young woman in Clyde has the peculiar quality of being poison to insects. The instant a fly, mosquito, bee or other insect bites or stings her, it drops dead.

Doctors say her condition is due to a peculiar condition of the blood caused by having been poisoned at some time by insect bites acting as an anti-toxin or virus.

TWO WEDDINGS AT BELOIT TODAY

Beloit, Wis., June 5.—At seven o'clock this morning at St. Thomas' church occurred the marriage of Mr. James Brittan and Miss Mame Connell, both of this city. Miss Katherine Connell, sister of the bride, acted as bridesmaid, and Mr. Robert Brittan, brother of the groom was best man. After the ceremony a wedding breakfast was served at the bride's home to the relatives and immediate friends of the young couple. Miss Connell is well known here and has many friends. Mr. Brittan has always lived in Beloit and is one of Beloit's best young men. He is a mechanic at Fairbanks, Morse & Co.'s shops.

At noon today the residence of the Rev. M. J. Ward the words were spoken that united in marriage Mr. Bert Holiday and Miss Ida Egger. Both parties are well known having always lived here.

MRS. M'KINLEY IS STILL VERY LOW

Washington, June 5.—Dr. Rixey after visiting Mrs. McKinley this morning said she had passed a quiet night and her condition was unchanged.

Secret archives of the Filipino government captured at Malolos, prove that Aguinaldo plotted to betray United States while pretending to be an ally.

Boston to have a college for training young women to earn a livelihood. Funds left by John Simmons for the purpose.

Hungarian girl at Tacoma sold to man she did not love attempted to poison him.

KILLED 800 TARTAR PEASANTS; HORRIBLE MASSACRE IN SIBERIA

Two Thousand Russians Wipe Out an Entire Village—Men, Women and Children Brutally Slaughtered by a Furious Mob.

St. Petersburg, June 5.—An official report from Siberia tells of a horrible massacre in a little village on the Yenisei river.

Two thousand Russian peasants attacked the Tartar village of Irbeisk and killed the eight hundred inhabitants.

Men, women and children were brutally killed in revenge for horse killing. Practically nobody escaped.

Some were beaten to death, others

EFFORTS TO SETTLE THE BIG STRIKE

State Board of Arbitration Has Taken a Hand in the Trouble at Milwaukee.

Milwaukee, Wis., June 5.—The state board of arbitration has taken a hand in the machinists' strike in this city, and if the actions of the employers and their men today are not misleading the prospects for an early settlement are bright.

Conferences were held with the men and their bosses, separately today to arrange preliminaries and it is said that the leaders on both sides are showing an earnest disposition to arrive at an understanding. G. E. Wilmet, secretary of the board, and A. McMillan, another member, spent several hours with the men.

The meeting yesterday afternoon with Mr. Reynolds of the Allis-Chalmers plant was followed by a statement from Mr. Reynolds that "we have at all times been willing to meet any of our men, and will not refuse to do so now." The strike leaders say the same thing, and they always have said it. They are ready to discuss the situation, and are open to argument.

WHEAT IS HURT BY THE DROUGHT

ABSENCE OF RAIN IN NORTHWEST IS INJURIOUS.

Effects of Dry Weather Aggravated by Ravages of Insects—Lower Lake Region and the East Gulf Coast Suffer from Too Much Rainfall—In Wisconsin.

Washington, D. C., June 5.—Practically an entire absence of rain over a large part of the Missouri and upper Mississippi valleys has intensified the drought conditions previously existing in these districts, while the greater part of the region extending from the east gulf coast to the lower lake region and New England suffered further from excessive rains.

On the whole the week has been unfavorable to corn, which, owing to low temperatures, has made very slow growth throughout the principal corn states, damage by cut worms being exclusively reported.

Harvesting has begun as far north as Arkansas, and will begin in Kansas about the 15th. The crop in Oregon has improved, and in California, where harvest is beginning, the largest yield in many years is promised. Spring wheat is generally in need of rain throughout the spring wheat region, especially in the Dakotas. The crop has, however, made fair progress in portions of the Dakotas, and notwithstanding the dry weather in Minnesota has made good growth.

Transplanting of tobacco has made progress in Maryland, Virginia and Tennessee under favorable conditions in Kentucky about half of the crop has been transplanted, but the plants are small and are not starting well. In the Carolinas tobacco is suffering from heavy rains. The plant beds in Ohio have been unfavorably affected. With the exception of apples the general outlook for fruit is satisfactory.

Wisconsin—Week cool with heavy to killing frosts in exposed localities in northern section causing considerable damage to gardens and fruit; corn planting completed, early plantings up, but look yellow on account of cool weather, much re-planting being done; winter wheat doing well, but stand generally thin; rye heading; spring grains fairly good, but need warm weather; grass and pastures doing well.

POPE LEO HAS HAD A FAINTING FIT

Rome, June 5.—The pope had a fainting fit this morning. Physicians stated that the weakness is temporary as the effect of the intense heat prevailing here. They do not anticipate any serious results.

PHILLIPS DIED A NATURAL DEATH

New York, June 5.—Kirk Stanley held on suspicion in connection with the sudden death in his apartments of Father Phillips, the noted Pennsylvania coon region priest, was dismissed from custody this morning, the autopsy having been that the priest died from natural causes.

DISCOVER MORE ASPHALT

Vast Deposits Have Been Found on Island of Santiago

New York, June 5.—A cable message to the Ecuadorian association, which has officers in this city, announced the discovery of vast deposits of asphalt on the island of Salango, off the coast of Ecuador.

Trinidad is now the chief source of the world's asphalt supply, which is controlled by the trust.

VERDICT FOR THE DEFENDANT

Mrs. Eddy Wins Suit Mrs. Woodbury Brought Against Her.

SCENES IN TRIAL

All Sensational Evidence Is Prohibited by a Ruling of the Court.

SPICY LETTERS READ

Boston, June 5.—A verdict for the defendant in the Eddy case was rendered this afternoon at three o'clock.

Boston, Mass., June 5.—Mrs. Josephine Curtis Woodbury, the wealthy plaintiff in the libel suit for \$150,000 against Mrs. Mary Baker G. Eddy, was the most important witness today, the third day of the trial. Mrs. Woodbury dressed in black, and with her wavy dark hair, streaked with gray, brushed carefully back from her intellectual face, was self-possessed and bore herself with the air of a society woman in the drawing room as she took the stand.

The First Met Mrs. Eddy
She evidently wanted to tell all she knew about Mrs. Eddy, and several

times had to be cautioned not to answer questions tending to give her a chance to tell things, until after the objections of the opposing counsel had been heard and passed on by the judge.

Mrs. Woodbury began her testimony by saying that she first met Mrs. Eddy at the home of Clara Elizabeth Choate. Mrs. Woodbury became interested thereafter in Mrs. Eddy's exposition of Christian Science and in 1881 studied with Mrs. Eddy. She took the degree of C. S. from Mrs. Eddy's school, and, more than that became a confidential friend of Mrs. Eddy. Her husband also became a Christian Scientist.

Examination Was Disappointing
The examination of Mrs. Woodbury was disappointing to those who expected that she would tell some sensible

sational stories, just as the examination of Judge Hanna was disappointing in not bringing out any evidence of especial value to the plaintiff. Mrs. Woodbury was on the stand about three hours, but so little did Mr. Peabody's questions develop that the defense did not even take the trouble to ask her a single question in cross examination.

In fact, four-fifths of her time on the stand was used up in the tedious arguments between counsel regarding the admission of the comparatively few questions put. It is probable that Mrs. Woodbury will be called again.

Mrs. George A. Warren of Pearl street went to Milwaukee yesterday morning to attend the Rebecca Assembly and visit friends.

THE HIGH SCHOOL CLASS OF 1901 PRESENT A VERY FINE PROGRAM

First Commencement Exercises in the Gymnasium
Drew a Very Large Audience—Some of the
Interesting Thesis Read—The Anvil Chorus.

The class of 1901, Janesville High school has stepped upon the threshold over which it will soon pass from happy High school life, some of the members to enter higher institutions of learning, others to become students in life's stern school of action.

The first exercises of commencement were held last evening in the gymnasium of the High school building and were thoroughly enjoyed by an audience of nearly 1,200 people. The gymnasium, with its abundant decorations of purple and gold, presented a very attractive appearance. The work of getting the room so that it could be used continued up to the very last moment, the stage carpenter work having to be done before the exercises last evening.

There were some of the hitches and waits which always accompany "first nights," the drop refused to work, the curtain failed to come down on the anvil chorus tableau and the participants walked off of the stage in view of the spectators but, the audience was good natured and forgot all these little aggravating details in the many excellent things which the program offered.

Widely Varied Program

The program was widely varied, a number of novel and entertaining features being introduced.

Supt. D. D. Mayne presided and the program opened with a selection by the Imperial male quartet of Chicago. The personnel of the quartet is the same as it was last year, a fact that their admirers were pleased to note.

The quartet includes James Smith, first tenor; J. C. Bird, second tenor; Ben. L. Tufts, first base, and John T. Read, second base. They are peerless in the art of making melody and are the finest quartet which has appeared in this city in many a moon.

Their first number was a vocal march, "Away" and in response to an encore they sang a humorous bit of song "Three Children." Later they gave "In Liberty's Name" and were forced to respond to a double encore, giving a Mother Goose mixture and "Down in the Cornfield." They closed the program with "Doan Yo' Cry Ma Honey."

Welcome by Harry Kirkland

The audience was welcomed by Harry B. Kirkland, president of the class, who gave the salutatory in a happy, natural manner. The idea of his salutatory was clever and original, school life being compared to Jason's conquest of the Golden Fleece which he likened to the diplomas. The class which he represented was the first to hold commencement exercises in the high school building and he thought it to be especially appropriate that the exercises should be representative of the school work of the various departments.

Four Modern Poets

As her part of commencement work Miss Laura Dud'ley presented a very interesting English thesis "Four Modern Poets." She chose for her consideration, Stephen Phillips, Paul Lawrence Dunbar, James Whitcomb Riley and Rudyard Kipling. She gave the principal characteristics of the work of each poet, reciting brief selections illustrative of the style of each.

Thesis on "Ether."

Lloyd R. Winston gave one of the best and strongest theses of the evening, his subject being "ether." The first part of his thesis was devoted to the proof that the force of gravity and the transmission of light is not through air, as was once believed, but through ether. Ether is a something which is in all bodies and fills all space and which cannot be seen, felt or tasted, but must be recognized in order to account for many phenomena. By it scientists have discovered wireless telegraphy, the X-rays and vacuum tube lighting. Mr. Winston concluded his thesis with several experiments which were very successful. His work showed careful scientific preparation and his delivery was natural and very pleasing.

One of the best numbers on the program was "The Madonnas," presented by Miss Edna B. Rogers. Her thesis was illustrated by the stereopticon, reproductions of several famous Madonna pictures being thrown on canvas. Miss Rogers spoke of the beauty and distinguishing qualities of each bringing her interesting thesis to a climax with the Sistine Madonna by Raphael, "the most beloved and famous of all artists." Miss Rogers deserves special credit for her exceptionally good work. She has been very ill with appendicitis and yesterday was the first time that she has been out.

The Anvil Chorus

A very picturesque number of the program was the "Anvil Chorus" from "Il Trovatore." The curtain rose on a gypsy scene with a campfire around which reclined young men in splendid make up. Then the song began and so it proceeded gypsy maidens with tambourines entered and the chorus continued to the music of tambourines and anvils. It ended with a gypsy dance and tableau. The chorus was splendidly rendered.

Fred S. Scarelli gave a concise and excellent explanation of X-Rays and the important relation of the discov-

BILLS-WORTHAM CO. GET A FRANCHISE

The Rockford Morning Star of Tuesday has the following:

"The Bills-Wortham company was granted a franchise last night to build a telephone exchange in Rockford.

"The ordinance granting the Winnebago County Telephone company a similar franchise was defeated by the same vote that granted the former.

"The meeting was an interesting one and filled with close parliamentary practice and verged on personality in many instances. It was attended by a large number of citizens and a dozen attorneys who represented various interests or who attended to watch the progress of the struggle.

"The aldermen who were in favor of the Bills-Wortham company voted solidly together and had more than the required two-thirds strength to pass all questions so there is no further doubt in the matter."

Frank Bills and Mr. Wortham of the Bills-Wortham company are both well known in this city having resided here for some time and were the promoters of the Rock County Telephone company of this city.

This is their second attempt to secure a franchise in Rockford, the first being unsuccessful. Their many friends here will extend congratulations on the successful outcome of their enterprise.

EVANSVILLE.

Evansville, Wis., June 3.—Mr. and Mrs. Cardona who have been training some animals for Col. George W. Hall expect to go out on the road with them soon. It is really wonderful to see an African lion, two tigresses and a leopard perform feats all in one cage and the work they do speaks well for the patience and skill used in training them.

The new homes of Mr. Charles Webb and Mr. Gleason are fast nearing completion.

Prof. Stillwell of the seminary is entertaining a large number of friends during commencement week.

Len Smith, formerly of this city has been engaged to take charge of the isolation hospital at Madison for the coming year.

The Big Indian Carnival under the direction of Mr. Baker of Chicago is fast nearing completion. It will be given in Magee's opera house, June 14 under the auspices of the ladies of the Episcopal church.

Lou Ball has purchased a house of Guy Barnard 4 1/2 miles east of the city and will move it to Evansville on Mill street soon and will make a comfortable dwelling of it.

The firm of G. A. Serles sold their grocery business to G. A. Patterson & Co. last week.

The following teachers have been engaged for the public school for the coming year. Principal, H. F. King; science, C. B. Greene; Latin, Adeline Beacon; English, Crystal Stair, 8th grade, Mrs. N. Burnham; 7th grade, Miss Olds; 6th grade, Miss Leonard; 4th grade, Miss Dann; 3rd grade, Miss Nellie Bacon; 2nd and 1st, Miss Crow; kindergarten, Miss C. Morgan.

Verne Winston of the Chicago Medical school is spending a few days with parents and friends in the city.

George Sewell writes that he has arrived safe and sound in San Francisco from the Philippines. He is expected to return home in a day or two.

Rev. Kelsey of Chicago delivered the Baccalaureate sermon to the graduating class of the seminary on Sunday afternoon. The financial agent of Lawrence university addressed the class of 1901 of our High School in the M. E. church on the same evening.

BUTCHER'S BOY HAS LIVELY RUNAWAY

His Broncho Woke Up West Milwaukee Street This Morning in a Sharp Collision.

A broncho belonging to Thomas Courtney, the West Milwaukee street butcher was left untied this morning, while the delivery boy was leaving some meat at a house in the First Ward. While the boy was out of the way, the broncho became frightened and started on a run for town. He ran down West Milwaukee street across the bridge and on up the street towards Milton avenue. By this time he was rather tired and was not running very fast.

Lowell's delivery wagon loaded with barb wire and driven by Frank Parker was going up east Milwaukee street and was just in front of the Highland house when the runaway came along. The front wheel of Courtney's wagon locked in with the hind wheel of Lowell's wagon, wrecking it and dumping some of the spools of the wire into the street. A young man by the name of Yuengst was sitting on the back end of the Lowell wagon and had a narrow escape from being seriously hurt.

When the rigs collided the sudden stopping of the runaway jerked the broncho off from its feet and the horse and rig turned a complete somersault, the broncho landing on its side between the car tracks and the delivery wagon landing bottom side up beyond it.

The broncho was caught by bystanders before it could regain its feet and unharmed. It was cut up some from the damage. One of the rear wheels of Lowell's wagon was smashed and the front axel sprung. A few dollars will cover the damage.

The owners of delivery wagons should be prosecuted every time one of their horses are left untied. There is an ordinance against it and some innocent person is liable to be badly hurt on account of their negligence.

Wisconsin Cavalrymen, Attention

In compliance with the usage adopted by the recent G. A. R. encampments, opportunity will doubtless be given to each of the regimental organizations to hold reunions on the first day of the coming encampment at Sheboygan. Such opportunity is hereby assured to each of the four regiments of the Wisconsin Cavalry brigade, and also to the brigade itself. The hours and places for these reunions will be made known upon arriving at Sheboygan. Every indication points to a most successful encampment and it is to be hoped that he veterans will, as always do their full share and be splendidly in evidence, ready to bear a part at the reunions on the 19th of June. ELECTRICAL EXPERIMENTS BY SEVERAL HIGH SCHOOL BOYS

Allow a Voltage of 200,000 To Pass Through Their Bodies—Also Produced Light in Vacuum Tubes—Interesting Tests Last Night.

The scientific experiments performed by Edward Wray and Richard Griffiths at the high school commencement exercises last evening are among the great wonders of the eye and have never before been performed in this part of the country except by Nicola Tesla, the scientist and inventor, and by Prof. Abbott of Chicago. Even the large universities and colleges know of them only by hearing and it speaks wonders for the Janesville High school and for the young men that the experiments should have been produced here.

The scientific facts regarding the experiments follow: During the world's fair in Chicago, the world was astonished by Tesla's electrical experiments. He produced an electrical current of enormous voltage and rapid alternations. By means of an invention which he called an oscillator, he gave experiments which until recently have never been duplicated. He upset all accepted theories by taking the enormous voltage of 500,000 volts through his body, demonstrating its entire harmlessness when all the world had supposed it to be fatal.

A short time afterward Tesla produced the remarkable effect of vacuum tube lighting and it was these two experiments which were given at the high school last evening. No one has ever been able to reproduce them until a short time ago, when Prof. Abbott of Chicago, accomplished the same results by means of a different set of instruments, operating with an alternating current.

Edward Wray saw Prof. Abbott's experiment and determined to secure it if possible for his graduation thesis. He went to Chicago and not only succeeded in receiving instructions from Prof. Abbott but secured the use of part of his apparatus, which

Adkins is a Wonder.
The Evening Wisconsin of Monday contains the following:

"Pitcher Adkins of Beloit college, who has made an enviable record among Western colleges the past season, leading all the pitchers, was in the city over Sunday and took in the base ball game between the Brewers and Boston yesterday. Adkins attended the athletic meet at Chicago Saturday and stopped over in Milwaukee on his way home. He has agreed to pitch for the DeKalb, Illinois club after leaving college next week. However, Adkins has agreed to give the Milwaukee club first call on his services when he gets ready to play league ball, but that will not be for some time yet. He has another year at college, but there is very little probability that he will play base ball next spring, that is on the college team, although if eligible he would not object to it. The big pitcher is in fine condition at present and has been pitching splendid ball, having perfect control of the ball." Adkins says that Merrill, the Beloit athlete, was a wonder at the meet in Chicago Saturday and performed in a manner that places him among the first athletes of the country."

Adkins is a Wonder.
The Evening Wisconsin of Monday contains the following:
"Pitcher Adkins of Beloit college, who has made an enviable record among Western colleges the past season, leading all the pitchers, was in the city over Sunday and took in the base ball game between the Brewers and Boston yesterday. Adkins attended the athletic meet at Chicago Saturday and stopped over in Milwaukee on his way home. He has agreed to pitch for the DeKalb, Illinois club after leaving college next week. However, Adkins has agreed to give the Milwaukee club first call on his services when he gets ready to play league ball, but that will not be for some time yet. He has another year at college, but there is very little probability that he will play base ball next spring, that is on the college team, although if eligible he would not object to it. The big pitcher is in fine condition at present and has been pitching splendid ball, having perfect control of the ball." Adkins says that Merrill, the Beloit athlete, was a wonder at the meet in Chicago Saturday and performed in a manner that places him among the first athletes of the country."

CONFIDENCE AND MONEY.

The last weekly letter of Henry Clew's, the New York banker and financier, contains some information that is food for thought, and emphasizes the fact that this nation was never so prosperous as at the present time.

Mr. Clew's says that when the stock speculation was at its height on Wall Street, that the weekly transactions amounted to the sale of 15,000,000 shares, representing a billion and half in money and showing an average advance over the same date of the previous year of fifty per cent.

That when the climax came, and the weekly sales dropped to a normal condition, showing a shrinkage of seventy-five per cent. in volume, that the value of stocks only showed a decline of five per cent. He attributes this fact to national conditions, namely the wide spread prosperity extending over the country, and the degree of confidence so fully established. He also mentions other elements that enter into the situation, and lists them as follows:

1. The Supreme Court decision in the Porto Rico case. 2. Cuba's acceptance of the terms for the island's government. 3. The final settlement of the London shorts in the Northern Pacific corner, which removes the Northern Pacific menace from both the London and New York markets. 4. The settlement of many of the threatened strikes. 5. J. P. Morgan's early return. He will leave for home next week; his return will improve the steel stocks. He will also meet his adversaries and harmonize them; as a matter of fact, the differences heretofore existing between them are already settled and the various parties are again on friendly terms. The outlook for the coming week is for a more active market and a higher level of prices."

It will be noticed that he includes the return of J. Pierpont Morgan as one of the factors. This may sound like egotism, and yet it is a fact that Mr. Morgan has more to do with influencing financial conditions today, than any other man, or any score of men in the country.

His influence is great, not only at home, but abroad, and his presence on the London Stock Exchange was recognized as the saving factor, during the late Wall street flurry.

Mr. Morgan is said to be the wealthiest man in the world today. With his great wealth he possesses great enterprise, and invests his money freely.

Unlike Russell Sage and that class of conservative capitalists, he uses his money in advancing the world's industries, and through his investments a vast army of men find employment. Mr. Morgan is a progressive American. His money is powerful, because back of it is the man. His presence gives confidence, and confidence is the world's capital.

AN UNREASONABLE REQUEST.

The Chicago Federation of Labor evidently has faith in prayer. A dispatch was sent from their meeting the other day, to the Presbyterian Synod, now in session at Pittsburgh, requesting prayer for the success of the eight hour movement now under discussion. If the Synod possesses the good sense for which its constituency is noted it will courteously decline the honor. Organized labor has a reputation for the unreasonableness of its demands, but the short work day caps the climax. It practically says to all workers outside of the organized class, we propose to enjoy special privileges, because we have the right to demand them and possess the power to enforce the demand.

The great mass of men and women kind in the world, work for a living and a very small percentage of them are connected with labor organizations. They have no time for walking delegates, or labor agitators.

There are three classes of laboring people recognized everywhere. One of them is known as the brain workers, whose life is devoted entirely to mental work, and who would not know how to earn a dollar with his hands, because they lack the training and muscle behind them to make them efficient.

While this class represents the smallest of the three, and is physically the weakest, it is the giant class for strength and helpfulness. It doesn't run a clock or bell, or steam whistle, and its work day is not tolled off in hours, but is governed entirely by endurance and this is so badly taxed that the allotted time of life is seldom reached.

Next to this class in numerical strength, and the opposite extreme, is the class whose only investment is muscle. The brain of this class travels in one channel, while the hands mechanically perform their work. It isn't a question of how much can be accomplished, and how

well business interests can be served but how little can be done for the money, and how few hours can be legalized as a work day.

From the ranks of this class come the labor organizations, ready to strike with or without cause, disregarding every interest save the union, ready to do the bidding of some loud mouthed agitator, who has discovered how to work his tongue to advantage. The most threatening monopoly and the most gigantic trust that the world knows anything about today, and yet this organization wants the prayers of a church to aid in establishing an eight hour day.

The great middle class that comprises the great army of the world's workers, are the men and women who invest both brain and brawn in the work of life. Many of these honest contented toilers are working for themselves but a vast majority of them are working for others, learning by observation and experience that independence is the result of faithful self sacrificing tact, with the clock left out.

They never strike, or entertain a grievance, and wouldn't know a walking delegate from a Carrie Nation agitator.

Janesville has 10,000 workers of this class and they are scattered over the country in just about this proportion. They are not praying for an eight hour work day, but are thanking God for the strength and ability to work at all, and looking forward to the reward that well improved opportunities never fails to furnish.

It is to be regretted that the grand jury did not succeed in indicting Dowie. The failure amounts to a great victory for the blasphemer, who now claims that he is "Elijah, the Prophet." The fact that 4,000 deuded people joined him in a procession to his "Zion" one day last week is a sad comment on the weakness of American minds on questions of religious belief. The Dowie drifters are altogether too numerous for safety.

The farmers of the north-west propose to recognize George H. Phillips, the young "corn king," at their convention to be held in St. Paul next month. Not since the wheat deal of Joseph Leiter has any one man so benefited the farming community by forcing upward prices on a cereal. While the farmers have been benefited consumers have not complained because times are good and money easy.

The pension plan soon to be adopted by the C. M. & St. P. road will prove a blessing to an army of employees. The company has a large force of men who have grown old in the service. They have been faithful workers and their declining years will be made brighter by the thoughtful provision of the employer. Corporations are not so soulless as they are sometimes pictured.

There is a chance for some enterprising American to make a fortune by discovering a substitute for platinum. The South African mines are flooded and practically destroyed, and Siberia's stock is limited. The metal has advanced from \$5.00 to \$36.00 an ounce, double the price of gold.

The Chinese have been taught a rather severe lesson during the year that the allies have been in Pekin; but now that they are leaving, allowing the emperor full control, the world will expect to see the promises fulfilled as rapidly as may be.

J. Pierpont Morgan does not wear any medals or crowns but he can give King Edward a tip on managing an empire at a profit.

The American people are willing to forgive Richard Harding Davis for his valet; but it is a little too much to expect them to forgive him his magic lantern lectures.

Probably the rise in platinum is due to the fact that either the German government or Morgan have bought all of the white metal in sight.

We can imagine the convictions of the Chicago ministers who made a report on the departure of the can-teen.

EXCHANGE SACRED VOWS OF WEDLOCK

Bessie May Fisher and Louis Howe of the Town of Center Were Married Last Evening.

Surrounded by a company of relatives and friends, Miss Bessie May Fisher and Louis Howe, popular young people of the town of Center, exchanged the sacred vows of matrimony at eight o'clock last evening, the nuptial blessing being pronounced by Prof. Whitcomb of Evanston, Ill.

The ceremony was solemnized at the home of the bride's father, I. U. Fisher at Footville. The parlors were handsomely decorated with beautiful flowers and trailing vines. One corner of the room had been transformed into a bower of beauty by an arch of beautiful white blossoms beneath which the bride and groom and their attendants took their places as they entered the parlors to the familiar strains of the wedding march.

The bride's cousin, Miss Ethel Fisher of this city, attended her as maid of honor and the groom was attended by his brother, Glen Howe. Following the ceremony and the congratulations a sumptuous wedding feast was very prettily served at flower decked tables.

The bride is a daughter of Charles Fisher of the town of Center and a sister of S. M. Fisher of this city. She is an accomplished young woman of many charming qualities and she will preside gracefully over her new home. The groom is a young farmer who resides near Footville. Both he and his bride will have the sincere congratulations and the best wishes of a host of friends throughout the county.

It is evident by his meek submission to capture that Aguinaldo has been over-rated as a patriot.

SLEUTH IS AFTER STEWART JELIFF

RUNNING DOWN CLUES IN REGARD TO HIS MOVEMENTS.

Detective in This City This Morning Getting Information That Will Help to Convict the Man Held for the Robbery of the Mineral Point Bank.

A detective in the employ of the Fidelity and Casualty Insurance company that insured the First National Bank of Mineral Point against robbery was in the city this morning running down clews concerning the movements of Stewart Jeliff, between the time the bank was robbed and the time he was arrested.

He has been able to trace him to a number of small towns in the vicinity of Mineral Point. He was seen at Blanchardville about seven o'clock Saturday morning, but from that time until he was arrested on Monday they have been unable to trace him.

The detective had three pictures of Jeliff which show him to be a keen sort of a man with a look that would deceive anyone. The detectives are of the opinion that he did the work alone and that he had no confederates. They are also satisfied that the holes in the roof of the bank building were made the night before the robbery so that all Jeliff had to do was to saw the portion of the roof loose and get into the garret over the vault, where it was an easy job to remove the bricks that the vault was built of.

Jeliff is described as being a strange sort of a man who rarely ever spoke to anyone during the time that he was in Mineral Point.

Detective Milligan of the Pinkerton force that is working on the case said that the man understood his business and made a clean job of opening the safe.

Jeliff has been arrested before for robbery and has an attorney from Fond du Lac to defend him. He had his preliminary examination at Mineral Point this morning.

WIFE CAUSES HER HUSBAND'S ARREST

Eng. Hovland Got on a Tear and Smashed Things in and About His Wife's Home.

Eng. Hovland was before the municipal court this morning on the charge of being drunk and disorderly. His wife claimed that while under the influence of liquor he came to her home and on being refused admission to the house tried to break in the door and smashed some of the windows.

He and his wife have separated and Hovland claims that the understanding was that he was to be allowed to go to the house twice a week and see his children. Judge Fifield was not satisfied with his explanation of the reason he went to the house or with his condition at the time he went there so sentenced him to three days in jail and to pay a fine of \$3 and costs in all \$4.20 or spend ten additional days in jail.

John Sheridan was also up for being drunk and disorderly and was fined \$3 and costs in all \$4.20 or five days in jail.

ASSESSORS MEET AT COURT HOUSE

Talk Over the New Law and Lay Plans to Assess Rock County Property.

The assessors of all the towns, cities and villages of Rock county met this afternoon at the county clerk's office for the purpose of discussing the assessment rules recently laid down by the state tax commission.

The meeting was called for the purpose of reaching an understanding as to what should be adopted as a basis of taxation.

L. E. Gettle of Edgerton, had a report of the tax commission setting forth the average value per acre of real estate in the different towns computed from the prices obtained for property in the last few years and the per cent of the market value that it had been assessed at. The percentages ran all the way from 28 to 54 per cent of the real market value, in the town of Avon the assessed value of the property was but 28 per cent of the real value as shown from the sales and in Clinton it was 54 per cent.

It is with an idea of securing some uniformity of assessment that the tax commission has asked the assessors the full value on the property assessed by them so that there will not be such a great difference in the values of the different towns.

Students Will Picnic

Members of the Sophomore and Junior classes will enjoy a picnic at Hoard's place, Lake Koshkonong, next Friday. The trip will be made overland in caravans and carriages, the party starting from the city about six o'clock in the morning. A feature of the day's pleasure will be a baseball game between nines representing the two classes.

On motion of the attorneys interested in the matter being heard by Judge Dunwiddie in regard to incorporating Milton Junction was adjourned until Monday morning at 9 a.m.

LARGE ARRAY OF GIFTS

Being Shown This Week at the Store of F. C. Cook & Co.

This week at the West Milwaukee street jewelry store of F. C. Cook & Co. a most complete and novel array of jewelry gifts are being shown, having been purchased in view of the fact that this week graduation exercises are being held. The line of graduation gifts shown by Messrs. Cook & Co. are most reasonable in price, and embrace the latest novelties in jewelry. The line includes pins, fancy buckles, rings, chain bags and other gifts too numerous to mention. No gift is more appreciated than jewelry, and when purchased of a firm like F. C. Cook & Co., one can rest assured that the purchased article is just as represented. The display of jewelry novelties made this year by this enterprising firm would compare favorably with leading city stores.

PRENUPTIAL HONOR FOR BELLE ROLSTON

Bride-To-Be of John G. Rexford is Being Feted by Society in Minneapolis.

The feting of June bride has been the most prominent doings in the social world this week and little else has been going on except these pre-nuptial affairs. A large number of the weddings will be handsome home affairs, as the general tendency of the June bride seems to be in the quiet and seclusion of her home for the wedding. Brides and their friends are always on the lookout for something new to accentuate the importance of the event. Among the latest delightful customs is the tressan inspection which was inaugurated by a bride of the month. The guests gather informally to view the dainty finery of the tressan, the handsome gowns, get a glimpse of the many pretty odds and ends which are indispensable to a modern wedding outfit. After having chatted over the pretty things seen, the hostess prepares an informal chafing-dish luncheon.

The marriage of Miss Belle A. Rolston to John G. Rexford of Janesville, Wis., will take place on Thursday afternoon, June 20, at the residence of the bride's brother and sister, Mr. and Mrs. Charles L. Butterfield, 2, 749 Hennepin avenue. The wedding will be very quiet and only the immediate relatives and friends will be present. The appointments will be very beautiful and in keeping with the season.

One of the first of the handsome prenuptial events in honor of Miss Rolston will be given by Mrs. S. V. Morris on Wednesday afternoon, June 5, at her residence, 902 Ninth street. S. Miss Rolston is prominent in musical and social circles and is the soprano soloist of the Plymouth church quartet.—Minneapolis Times.

TRUSTEE CHAS. S. CLELAND

ANNUAL MEETING OF CONGREGATIONAL CHURCH SOCIETY LAST EVENING

At the annual meeting of the First Congregational church held last evening Charles S. Cleland was elected a member of the board of trustees to succeed Dr. C. L. Hedges, who has left the city. J. M. Whitehead and Alexander E. Matheson were also elected trustees to succeed themselves. The report of the treasurer, A. E. Matheson, showed all of the bills paid and a small amount in the treasury.

MRS. W. H. JUDD ENTERTAINS

Mrs. W. H. Judd entertained for her mother, Mrs. Janet B. Holmes, at her pleasant home, 4 St. Lawrence Place, last evening. The guests were about thirty in number, and included the members and a few friends of a whist club to which Mrs. Holmes belongs. The ladies were charmingly entertained, an elegant supper being faultlessly served at 5 o'clock. The parlors were beautified with cut flowers. The evening was pleasantly spent in card playing.

POLICE SHOULD INVESTIGATE

It's about time that the police of Janesville realized that Grubb is selling the leading brands 5 cent cigars 7 for 25 cents. Hundreds of local smokers have for some time realized this fact. Grubb is also selling the leading 10 cent brands of cigars 4 for 25 cents. The 5 cent makes include the Golden Crown, Cremo, Henry George, Fontella, Childe, Sportsman, Portuondo, Little Tome, Upman's Extra Fine, Moos, and many others.

LINEN COLORED EFFECTS

A late importation of one of New York's leading importers contains among other things some very new things in linen colored muslin edgings and insertions and we were fortunate in getting a liberal lot of them. Many women know how scarce desirable linen embroideries are. Many exclusive novelties here in laces and embroideries.

Three Men Who Were Extradited to Canada, Commit Murder.

A BOLD DASH FOR FREEDOM.**"Pal"** Tosses Revolvers Into the Carriage Taking Them from Court to the Jail—Use Weapons with Effect—All Are Recaptured.

Toronto, Ont., June 5.—Murder was done by the three bank robbers recently brought here from Chicago, in a desperate attempt to free themselves. There was a fierce battle fought in the narrow confines of a carriage, a dash for freedom to a passing trolley car, a fusilade of bullets and the fugitives were borne back to jail with the crime of assassination added to their other numerous crimes. Frank Rutledge, Fred Rice and Frank Jones, wanted for the looting of a bank at Aurora and captured in the United States, arrived here recently in the custody of Chicago policemen, with Detective McGrath in charge. The trio of fugitives were taken from the jail and arraigned in court for preliminary hearing. On the return journey to the jail the three were handcuffed together and placed in a closed carriage in the custody of Constables Boyd and Stewart. Just as the jail was in sight a well-dressed young man sprang from the sidewalk and ran alongside the carriage. He gained the open window and called a word of warning that was unintelligible to the officers. An instant later an old soft felt hat flashed through the carriage window and fell into Rutledge's lap. Constable Stewart divined that something was amiss, but before he could move Jones had seized upon the hat with his free hand and shaken it from its lining three loaded revolvers. Each of the handcuffed captives snatched up a weapon and opened fire upon their two guards. A bullet from Jones' gun struck Constable Boyd in the breast and he fell back among the cushions, dead. All three of the prisoners then directed their fire upon Officer Stewart, fully a dozen shots being fired. They forced open the carriage door and sprang into the street. At the moment a trolley car was passing and they boarded the front platform, their arms still manacled together. Jones leveled a pistol at the motorman and ordered him to increase the speed of the car, threatening death if he failed to obey. The motorman shut off the electric current, and turned to do battle, with the motor handle for his only weapon. Constable Stewart had followed the fugitives and boarded the rear of the car. He opened fire on them and wounded Jones so severely in the arm that it is thought he may die. The reports of the revolvers attracted other officers and Jones, Rutledge and Rice were captured. They were placed in a prison van and borne off to the jail with a frenzied mob in their wake shouting for their lives.

Erie Wins Race with Tashmoo.

Buffalo, N. Y., June 5.—The City of Erie defeated the Tashmoo by forty-five seconds in their match race over a course from Cleveland to Erie. It was such a boat race as the great lakes have not seen since that memorable contest between the Ocean and the Empire State thirty years ago. Distance of race, 96 miles; average speed of winner, 21½ miles an hour; best run, at rate 22 7-82 miles an hour; start of winner, at 9:38:30; finish of winner, 1:58:30; greatest interval between boats, 3 lengths; stake of \$1,000 goes to charity.

It certainly will be gratifying to all who know the Generals Booth, to learn of their reconciliation; be cause of the increased good they can do the Salvation Army by their united efforts.

Skin Diseases

ECZEMA, TETTER, PSORIASIS, SALT RHEUM, ACNE and a great many other diseases of like character are classed as skin diseases, when they could just as properly be called blood diseases, for they undoubtedly originate in the blood, like Cancer, Catarrh, Scrofula, Rheumatism, Contagious Blood Poison, etc.; the only real difference being in the intensity and nature of the poison. The more serious diseases, Cancer, Catarrh, etc., are caused by some specific poison or virus, which is either inherited or in other ways gets into the blood and attacks certain vital organs or appears in the form of terrible sores and ulcers, while the milder and less dangerous skin diseases are caused by blood humors or an over acid condition of that fluid. These acid poisons, as they ooze out through the pores of the skin, cause great irritation, with intense itching and burning. The eruption may be of a pustular kind, with excessive discharge of thick, gummy fluid, or the skin may be hot, dry and feverish, swollen and fissured. Skin diseases, whether they appear as sores, blisters or pimples, become more deeply rooted and intractable the longer neglected, the skin in time having a thick, hard, rough and unsightly appearance. You can hide the blemishes for a time with cosmetics; and washes, lotions, soaps and powders may relieve temporarily the itching and burning, but eventually the pores of the skin become so clogged up by this treatment that the poisonous matter thrown off by the blood cannot pass out of the system, and settles on the lungs, heart or some other vital organ and endangers life.

To purify and build up the polluted blood is the right treatment for skin diseases, and for this purpose no other medicine is so deservedly popular as S. S. S. It is a perfect antidote for all blood humors, and when taken into the circulation, gently but thoroughly eliminates all impurities and puts the blood in a healthy, normal state. The skin can't remain in an irritated, diseased condition when nourished with rich, new blood. S. S. S. is the only guaranteed purely vegetable remedy, and the safest and best skin beautifier. Write our physicians if you have any blood or skin disease, and they will cheerfully advise you without charge.

AN ABSOLUTE FACT THAT GREGG'S COFFEES ARE THE BEST

Pan-American Exposition Company,
D. S. Morgan Bldg.,
Buffalo, N. Y.

C. D. Gregg Tea & Coffee Co.,
Chicago and St. Louis.
Gentlemen:

I enclose you contract for the supply of coffee for the Bailey Catering Company, at the Pan-American Exposition, to be held in Buffalo during the coming summer. In the selection of your coffee, in competition with samples submitted by a number of the largest importers and Roasters in the country, I have been governed entirely by the quality of the same. My experience with the coffee supplied to me during the past year or so by your house has been so uniformly satisfactory that I feel that I could do no better than to complete this arrangement with you. The amount of coffee which this involves will probably amount to as much or more than has ever been supplied to one consumer in the same length of time, and I congratulate you upon your enterprise in having secured this contract.

Very truly,
PAN-AMERICAN EXPOSITION COMPANY.

In Janesville and vicinity we are exclusive agents for the Pan-American Blend. We are now prepared to fill orders. Phone us.

Pan-American Exposition

Buffalo, N. Y., May 1 to Nov. 1.

In its court settings, architectural, fountain and electrical effects, sculptural adornment, horticultural and floral embellishment, and color decorations this exposition will surpass all others.

To enjoy its charms, with the added attraction of Niagara Falls will be a most delightful privilege.

As the only double track railway from the West to Buffalo (meaning greater safety and dispatch in traveling) and by reason of its furnishing the most complete and frequent service of any line, the Lake Shore & Michigan Southern with its eight through trains daily, including the only daylight train, will prove the most desirable route for exposition travel.

In making it your choice you will travel well. It takes you through the richest and fairest portion of the Middle States, including the beautiful Western Reserve country with nearly 300 miles of ride along the picturesque south shore of Lake Erie.

All tickets over this route afford use of steamers either way between Cleveland and Buffalo, also stop at Chautauqua on return trip within limit of ticket. "Book of Trains" containing full information about Lake Shore service free on application to F. M. BYRON, G. W. A., Chicago.
